

## ***My aspirin on wheels***

My boss is grumpy,  
my apartment's dumpy,  
the street outside  
my building is bumpy

My mattress is lumpy  
my girlfriend's frumpy  
I'm busted and broke  
as humpty dumpty

The economy inflated  
my clothes are outdated  
my bathroom stinks  
where my dog defecated

At work I'm frustrated  
don't feel appreciated  
with no raise this year,  
my career's stagnated

But when I open the door and get behind my wheels  
you really know, you know how it feels  
driving around with other automobiles  
riding around in my aspirin on wheels

My aspirin  
my aspirin  
my aspirin on wheels  
just driving around town...  
in my aspirin on wheels

My landlords crabby  
my neighbors are gabby  
all my rented  
furniture's shabby

My life is drabby  
my scalp is scabby  
I eat too much  
my belly's flabby

The air's too smoggy  
my cereal gets soggy  
I can't get no sleep with  
that all night barkin' doggy

My girl friend's dippy  
when she's mad she gets lippy  
her feet are longer  
than the Mississippi

But when I get in my car, turn the radio on  
suddenly all my troubles are gone  
push hard on the gas and the rubber squeals  
riding around in my aspirin on wheels

My aspirin  
my aspirin  
my aspirin on wheels  
just driving around town...  
in my aspirin on wheels

My whole life's dramatic  
my love life's sporadic  
Feel bad all the time  
is it psychosomatic?

Just got gum on my shoe  
I'm comin' down with the flu  
My last check bounced  
and my rent's past due

But when I'm feelin' crowded  
and I need some space  
feel I'm runnin' last in the rat race  
I don't start buggin' or taking pills  
I just pop an aspirin...an aspirin on wheels

I cruise 38th  
where everyone chills  
or Madison Ave looking for thrills  
in both neighborhoods  
I'm the king of the hills  
crusin' around in my aspirin on wheels

My aspirin  
my aspirin  
my aspirin on wheels  
just driving around.....  
in my aspirin on wheels

My paint job's chameleon  
got fur on my ceilin'  
got pearl lined dashboard that  
looks like a million

My style is superior  
all others inferior  
seat covers in Gucci  
red leather interior

Got low profile tires  
with golden rim wires  
my car looks so hot  
it starts forest fires

8 batteries to run  
my hydraulic pumps...  
a tank, aluminum blocks  
and 4 square dumps

Gots box solenoids  
and steel hardlines  
hi-low water faucet valves  
front and rear cylinder designs

The A arms are extended  
and the leaf springs removed  
for greater rear end height  
or hoppin' that's smooove

My music is trillin'  
my sound system's killin'  
I take the women for a ride  
you know, when they're willin'

Gots woofers,  
midrangers  
held down by big clamps,  
crossovers and tweeters  
2000 watt amps.

Got a 350 V8  
with 'lectronic distributor  
chrome custom headers  
and gas line inhibitor

High temperature coated  
spark plug wires  
350 transmission  
telescopic drive line required

My '60 Impala's  
worth 20, 000 dollars  
when I pull down the street  
everybody hollers!

Yes! Driving my car,  
I feel so alive  
speeding' round town on I-465  
I feel like one hundred thousand dollar bills  
when I'm riddin' 'round town  
in my aspirin on wheels

My aspirin  
my aspirin  
my aspirin on wheels  
just driving around.....  
in my aspirin on wheels.
