DRAWING LESSONS FOR OUR KIDDIES

**A BOTTLE OF INK
TURNED INTO A PICKANINNY**

CROSS X. SMITH

The bottle of ink is very easy to draw and a nickel will do to make the three circles. When you have this much made you have a very good start and the rest is very easy to do. You do not have to make the dress just the same as this one, can't you think up some kind of different dress for the pickaninny?
