

## VOODOO WOMAN CURES VICTIM FOR \$155, SOUGHT BY POLICE

"SISTER MARY" SAVES VICTIM UNDER SPELL OF BURIED BLACK CAT, AND ETC.

(The Associated Negro Press) NEW ORLEANS, La., July 21st.—"Sister Mary" kept her word and for \$155, with the aid of some hair in a jar, completely and effectively cured White Newman of his ailment which for several weeks prevented him from working. Now he will have to go to work because he has no more money and even though cured by a voodoo woman's "charm" has to eat to live.

Monday "Sister Mary" appeared at White's home in 3101 Audubon St., saying that she had heard of his illness. She stooped over, chanted a few prayers. Her charge was only one dollar. The next day she returned and prayed again. These were much better prayers for they cost \$14. Wednesday "Sister Mary" said they must have more prayers to save White. So with a spade she began in the front yard in search of a dead tom cat, a coffin containing a dead baby and a jar containing some of White's hair. All she got was the jar of hair and White gave her that.

Thursday "Sister Mary" returned and she chanted and prayed these prayers of a much higher value than any of the others, and White paid her \$40. Then "Sister Mary" told White that both he and his

wife were "doomed to die" Friday. The only thing that could save them was \$100. White didn't want to die and he paid the \$100. "Sister Mary" said she would give back the money. White lived. He learned Friday the police were looking for "Sister Mary."

According to Mr. Goodwin's statement, Mr. Lorenz Schmidt reports several interviews with members of the White People's Protective League, on the matter of selling the property to Negro people. ## Tuskegee Records Nine Lynchings

(The Associated Negro Press) TUSKEGEE, INSTITUTE, Ala., July 22d.—According to the records compiled at Tuskegee Institute in the Department of Records and Research that in the first six months of 1927, there were nine lynchings. This number is the same as the number for the first six months of the years 1925 and 1926; it is four more than the number five for the first six months of 1924, six less than the number fifteen for the first six months of 1923, twenty-one less than the number thirty for the first six months of 1922, and twenty-seven less than the number thirty-six for the first six months of 1921.

## PHOTOGRAPHY INSTRUCTOR APPOINTED AT TUSKEGEE

L. G. HYMAN OF WASHINGTON, D. C.

WASHINGTON, D. C., July 22nd.—Leonard G. Hyman, well known local photographer, has accepted the position as head of the photographic division at Tuskegee Institute, Tuskegee, Alabama. The position covers the operation of a studio for the Institute and the teaching of a class in photography.

The vacancy was created by the death of C. M. Battle, whom Mr. Hyman succeeds. A trip South to look over the situation, recently, proved favorable to the new photographer and the school authorities.

Mr. Hyman, grandson of the late ex-Congressman, John A. Hyman of North Carolina, finished the Brunel College of Photography, New York and received his teaching training at the Miner Normal School here. He leaves soon for New York, where he will attend the convention of the Photographers' Association of America, the last week in July. He expects to reach Tuskegee about August 1 to prepare for the opening of the winter session.

First: That he appoint a Lunacy Commission to examine Wallace McCutcheon, and determine as definitely as possible his true mental condition, as provided by the Statutes of the State of Indiana governing the criminally insane.

Second: That should this Commission find that the prisoner, Wallace McCutcheon, is criminally insane, then your petitioners pray that His Excellency, shall by authority vested in him order the prisoner transferred to the Indiana Hospital for insane criminals, and that there His Excellency shall enter an order for proper and corrective treatment, to effect, a cure of said mental defects, if possible, and upon determining such cure, that the said prisoner be restored to liberty.

Third: That as an Alternative we, your petitioners, pray His Excellency that should this requested examination fail to show evidence of criminal insanity, we pray and petition His Excellency to commute the sentence of the prisoner, Wallace McCutcheon, from death by electrocution, the sentence now pending, to become effective July 29th, 1927, at the Indiana State Prison, Michigan City, Indiana, to Life Imprisonment.

REASONS: We make this request for the following:

1.—That at the time of the alleged Commission of the crime, the prisoner was an infant sixteen years old.

2.—(a) That according to the testimony of his family and school physicians, Wallace McCutcheon was at the time of the commission

## Petition For Condemned Youth

To His Excellency The Hon. Edward Jackson, Governor of the State of Indiana, State House, Indianapolis, Ind.

In re: Wallace McCutcheon, age 16 years, prisoner at Michigan City, Indiana, who being found guilty by a Jury of the Marion County Criminal Court, April 21st, 1926, of murder in the first degree, being punished at Death by Electro-cution, and on the 26th day of April 1926, sentenced by His Honor, James A. Collins, Judge of the Marion County Criminal Court to Death by Electro-cution, at the Indiana State Prison, Michigan City, Indiana, to be effective August 4, 1926. Petition for Appointment of Lunacy Commission to Examine and Determine the Criminal Insanity of Wallace McCutcheon.

To direct treatment for such mental defects as His Excellency may find as results of this examination, providing for release of prisoner when cured.

Alternative:

To grant executive clemency by commuting this death sentence to Life Imprisonment should His Excellency find according to the evidence of the lunacy Commission that Wallace McCutcheon was not criminally insane at the time of the Commission of the Crime and is not criminally insane at the present time.

Sir: We 300,000 (three hundred thousand) persons of this United States of America, through fraternal, social, civic, political, educational, industrial and religious bodies, local, State and National, and individuals, through Attorney E. Louis Moore, who voluntarily entered the case after Wallace was sentenced and worked faithfully in his efforts to present newly discovered evidence before the Courts of Indiana, do hereby and herein join in petitions to His Excellency, Edward Jackson, The Governor of Indiana, praying His Excellency.

First: That he appoint a Lunacy Commission to examine Wallace McCutcheon, and determine as definitely as possible his true mental condition, as provided by the Statutes of the State of Indiana governing the criminally insane.

Second: That should this Commission find that the prisoner, Wallace McCutcheon, is criminally insane, then your petitioners pray that His Excellency, shall by authority vested in him order the prisoner transferred to the Indiana Hospital for insane criminals, and that there His Excellency shall enter an order for proper and corrective treatment, to effect, a cure of said mental defects, if possible, and upon determining such cure, that the said prisoner be restored to liberty.

Third: That as an Alternative we, your petitioners, pray His Excellency that should this requested examination fail to show evidence of criminal insanity, we pray and petition His Excellency to commute the sentence of the prisoner, Wallace McCutcheon, from death by electrocution, the sentence now pending, to become effective July 29th, 1927, at the Indiana State Prison, Michigan City, Indiana, to Life Imprisonment.

REASONS: We make this request for the following:

1.—That at the time of the alleged Commission of the crime, the prisoner was an infant sixteen years old.

2.—(a) That according to the testimony of his family and school physicians, Wallace McCutcheon was at the time of the commission

of the crime affected with Tuberculosis.

(b) That, at that time, he showed strong evidences malnutrition, his height being, 5 feet 8 inches and his weight only 96 pounds.

3.—That relying on the testimonies of his family and school physicians, the school principal and nurse and neighbors who have known Wallace McCutcheon for many years, and considering the report of his method in committing the crime, we your petitioners, do firmly believe, that the mental age of Wallace McCutcheon is far below 16 years and that he has some decided mental defects.

4.—That being sixteen years old, Wallace McCutcheon is in the adolescent period of his existence, which period normally abounds in energy, originality, adventure, moods and spasmodic activities. (All authors on adolescence agree in this respect.)

5.—That being a boy, he is naturally a creature of emotions that must have outlets.

6.—That the P-r-a-n-k instinct is natural in youth and especially for boys. This His Excellency knows is true.

7.—That ideas grip youth. The youth does not grip the idea.

8.—That the craving for excitement and the desire to have money is instinctive in growing boys, especially during the adolescence.

9.—That behavior is influenced by age, past and present desires, environment, physical and mental conditions, intelligence, and moral training.

10.—That even children from good surroundings without constant guidance may commit terrible crimes.

11.—That the child grows like the thing it sees, and gets its ideas therefrom.

(a) Wallace McCutcheon saw a filthy home, abandoned by his father; with illegitimate sisters and brothers, three months old upward.

(b) He saw a neighborhood of very poor houses with no modern conveniences, and with unsanitary surroundings.

(c) He saw a street with no lights, and full of mud holes.

(d) Wallace did not know good literature. He read dime novels.

(e) He attended 2 John's He saw in the movies the perfect carrying out of the crime he attempted. There was no killing in his plan.

(f) Wallace McCutcheon had for his associates men and women much his senior, the most intimate being:

Willie Floyd, age 23 years Horace Paragon, age 28 yrs. James Price, age 20 years

With these he would shoot crap and play cards. According to information received from Mrs. Josephine, Mother of Wallace, and his senior brother, Bernard McCutcheon one Mrs. Emma Smith, whose son is by far senior to Wallace, McCutcheon, frequently sought Wallace, and kept him at her house, refusing to tell Wallace's Mother her reason for seeking Wallace. Wallace says he got the gun from this woman and she told him, (Wallace) "Take it, Use it, and don't take nothin' off nobody."

12.—That Wallace McCutcheon according to school reports, could not advance intellectually.

13.—That disease, malnutrition, bad heredity and adverse environment, low mentality with added depravity of low mentality, all of this with the naturally active instincts of adolescence and with no moral training, must necessarily cause a disregard for the rights and privileges of others, and an inability to

foresee and weigh the possible consequences of different kinds of behavior, and crime is the only possible results.

14.—That we, your petitioners believe that society is responsible for any such unfortunate condition of any youth and should give a youth in such conditions, a chance.

15.—We believe, further, that should the mental defect in Wallace McCutcheon be found sufficiently grave to effect his sentence, the careful examination and training of this boy, will do more to protect society from the effects of crime than electrocuting him can ever accomplish, in that the public will see the possibility of detecting potential criminals and the one true method of preventing crime.

16.—We believe further, that should the mental condition of Wallace McCutcheon be found not sufficiently grave to change the degree of his crime, Society is indeed responsible for this crime in a larger measure than is the boy himself, in that Physicians, Nurses, school Officers and neighbors suspected low-mentality in Wallace McCutcheon, and since according to all authorities on mental deficiency, including the late Dr. Walter Fernald of the Mass. School for the Feeble-minded, and Dr. Henry Goddard of Vineland, N. J. All mentally deficient children are potential criminals, had Wallace McCutcheon, at least been thoroughly tested, with a view of giving him treatment as provided under the Statutes of the State of Indiana for Mentally Deficient children, this crime could have been prevented. But, His Excellency, we know of nothing that was done to definitely determine the mental condition of Wallace McCutcheon and to protect society against this potential criminal, whom the public had reason to suspect.

WHEREFORE, we, your petitioners, pray His Excellency, Edward Jackson, the Governor of Indiana, in whom alone is vested the power to save the life of this unfortunate youth, that he grant this request, determine the mental condition of Wallace McCutcheon and to protect society against this potential criminal, whom the public had reason to suspect.

And we, your earnest petitioners, shall ever pray.

E. LOUIS MOORE, Attorney For Petitioners, Indianapolis, Indiana

## Alleged Rapist Released On Bond

(The Associated Negro Press) NASHVILLE, Tenn., July 21st.—Although "positively identified" by the white woman he is alleged to have attempted to assault, Will Stewart, age 52, was released Wednesday on a \$2,500 bond signed by C. V. Ellis, of Inglewood.

Stewart, who is well-to-do painter and a respected citizen, was arrested Monday and charged with having attempted to assault Mrs. J. L. Rice, a middle-aged white woman. He was carried before the victim and identified by her and placed in jail. From the beginning Stewart has maintained a calm attitude, in spite of the fact that rumors were rife that he would be lynched. He claimed that he was in Belle Mead at the time the assault was attempted and that he had never seen the woman. That he was in Belle Mead at the time claimed was confirmed by H. B. Alexander, a white resident of that section.
